MEDICINAL.

Blood

Keep your blood clean as you keep your body clean. You don't wait until your body is foul before you cleanse it.

It is a matter of surprise that many people who are so careful to have clean bodies make no effort to keep the blood clean. Everyone knows that uncleanness breeds disease; that those who do not keep their bodies in a wholesome condition and who dwell in filthy surroundings are the first to fall when some epidemic of disease sweeps the country. But foul blood is more dangerous to the individual than a foul body. An unclean body is rather a passive than an active hindrance to health. But unclean blood is an active threat against the very life—it makes the body a prepared breeding place for disease.

It is part of Nature's plan for human safety that in many cases where the blood is impure or corrupt she sets a sign on the body in proof of the corrupt current that is flowing through the veins. Scrofula with its disfiguring sores and scars, eczema with its irritation, salt-rheum, tetter, erysipelas, boils, pimples and other eruptions are only the outward signs of the impurity of the blood. But often in the earlier or simpler stages of the blood's impurity there are no outward signs of this condition; only dull, languid, sluggish feelings, which are commonly attributed solely to the sluggishness of the liver.

Of all preparations for purifying the blood Dr. Pierce's Golden Medical Discovery easily takes the first place. It eliminates from the blood the elements which clog and corrupt it, and which breed and feed disease. It acts directly on the blood-making glands, increasing their activity, and so increasing the supply of rich, pure blood which is the life of the body.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Medical Adviser, paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

A Spanish Trick.

A pretty senorita, 19 years old, and $375,000 constitute the prize offered James M. Borland, chairman of the McKeesport, Pa., republican committee and a leading merchant of that town. As a preliminary he must send $2,000 to Spain. Mr. Borland has not swallowed the bait, but has notified the police, who in turn have notified the authorities in Spain of what is supposed to be a swindle.

Some weeks ago Mr. Borland received a letter from a man who signed himself Emilo Laparto, a prisoner for life in the castle fort of Barracas, Spain. The writer unfolded a romance that appealed not only to American patriotism, but to the heart strings as well. He offered for $2,000, sent at once, to deliver legal papers consenting to the adoption of his daughter and delivering a deposit slip on the bank of England for $375,000, payable to the bearer.

In a spirit of amusement Borland answered the letter. Additional details furnished were that Laparto's wife, on her deathbed, had expressed a wish that their child should be sent to Mr. Borland in America for adoption. Her name was Kate Borland, a relative of the Borland family in Allegheny county. Laparto said was an officer in the Spanish navy and served under Admiral Cervera in the Spanish-American war. Before the battle of Santiago he robbed the strong boxes of $375,000 and escaped to England. Fearing to deposit the money in his own name, he secured a deposit slip from the Bank of England, payable to the bearer.

Longing to see his daughter, Laparto went to Valencia. The child was in charge of Rev. Father Barto. While visiting his child he was arrested and sentenced to imprisonment for life. He managed to confide his secret to the priest, who has the deposit slip.

Mr. Borland received a letter a few days ago, alleged to come from Father Barto. In it was a photograph of the pretty senorita. The writer informed Mr. Borland that Laparto would probably be dead before the letter reached America and requested that the $2,000 be sent to him at once, as he had been delegated to carry out the wishes of the dying man. As soon as the money was received the priest promised to come to America with the girl and the deposit slip.

Mr. Borland answered the letter from Father Barto and expects soon to receive another announcing the death of the prisoner. Meatime he wrote to the Spanish authorities at Valencia, notifying them of the facts in the case.

A Curious Remedy.

Colorado news unknown in the State outside of one home has come back from Indiana, where it was first revealed in a letter written to Indianapolis. In a word, a consumptive girl, whose name is given as Charlotte Dunnington and residence as Waterford, Ind., has been, since the beginning of last June, and continuing until recently, when cold weather set in, sleeping nude in the woods on the ranch of her uncle near Granada, Col., covered only with earth. The story as it has come from Indiana is as follows:

The physician advised that she go to Colorado, where she had an uncle living, and take the new cure for consumption—the "nature cure"—the idea of which is to get right down to old Mother Earth and let the everlasting hills absorb into their strength all of the tuberculosis germs that infest the human system. Miss Dunnington acted on the advice and, accompanied by her faithful St. Bernard dog Noro, went to Granada within a few miles of which her uncle lives. She began at once sleeping in a small grove near her uncle's house without a vestige of clothes, like a modern Diana, covered only with loose soil, which she gently raked over her body as she retired each night to sleep under her blanket of soft warm earth.

During all the summer months just past the girl has slept thus, while her faithful dog constantly watched beside the sleeping form of his mistress. Nero and the stars twinkling in the clear heavens thus kept vigil during the long hours of the night. Each morning as Miss Dunnington awoke she has taken regularly her early morning roll in a dewy clover bank in what she calls the bath of the gods. After she had taken her roll in the morning dew she would then run throught the woods to a secluded lake nearby. Then she would take her early morning plunge into the cold clear water. Her swim over, she would emerge into the early morning sunshine again, which would serve for all the drying purposes of a towel. Then, draped in a thin, white cloth tunic, like a girl of old Greece, Miss Dunnington would spend the day with her dog out in the air among the Colorado hills, just growing young and taking unto herself all the eternal youth which complete outdoor life alone can bring. This tunic has been the only clothing she has allowed herself to wear during the entire summer. Miss Dunnington says she has improved perceptibly under this strange treatment.

Made Young Again.

"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens' again," writes D. H. Turner, of Dempseytown, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c at E. S. Leadbeater & Sons' Drug Store

Stole Rothschild's Money.

For the first time in its history the London house of the Rothschilds has suffered by an embezzlement. Moses Blumenthal, the trusted head of the Rothschilds' bullion department, who had carte blanche to use the firm's name, has been found short in his accounts, having speculated in consols. The firm's loss is placed at two hundred and fifty thousand pounds. The total losses will probably amount to a million pounds, sterling, the firm assuming only two hundred and fifty thousand pounds. Blumenthal had charge of the firm's smelteries and adulterated the gold in order to balance his books. When detected, he fled. It is the policy of the firm not to prosecute for breaches of faith. Blumenthal knowing he was safe, fled to New York. The Rothschilds, disgusted at the discovery of the first embezzler in the history of the house, closed the smeltery abruptly and retired from the bullion business. In order to protect the name of the house, they paid Blumenthal's brokerage accounts, although they were not legally responsible. It is the first scandal to smirch the name of the Rothschilds. The London papers suppressed the news. Baron Rothschild is melancholy because he found Blumenthal as a poor clerk and promoted him and introduced him socially.

Only Makes a Bad Matter Worse.

Perhaps you have never thought of it but the fact must be apparent to every one that constipation is caused by a lack of water in the system, and the use of drastic cathartics like the old fashioned pills only makes a bad matter worse. Chamberlain's Stomach and Liver Tablets are much more mild and gentle in their effects, and when the proper dose is taken their action is so natural that one can hardly realize it is the effect of a medicine. Try a 25 cent bottle of them. For sale by Gibson & Timberman and W. F. Creighton & Co., druggists.

A Good Complexion.

"Sparkling eyes and rosy cheeks restored by using DeWitt's Little Early Risers," so writes S. P. Moore, of Nacogdoches, Tex. A cer ain cure for biliousness, constipation, etc. Small pill—easy to take—easy to act. Sold by all druggists.

Catarrh and Hay Fever.

Liquid Cream Balm is becoming quite as popular in many localities as Ely's Cream Balm solid. It is prepared for use in atomizers, and is highly prized by those who have been accustomed to call upon physicians for such a treatment. Many physicians are using and prescribing it. All the medicinal properties of the celebrated Cream Balm are contained in the Liquid form, which is 75 cts. including a spraying tube. All druggists, or by mail. Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING. NOV, 28, 1904.

THE beginning of a $350,000 suit against Thomas W. Lawson in the name of a New York law firm has served to give unusual interest to the current month's installment of Mr. Lawson's magazine "Frenzied Finance." Mr. Lawson makes a ... against the Legislature of Massachusetts, which, he says, is ... and sold as are sausages and ... at the market." He declares that a condition of rottenness and corruption exists at Boston worse than that of any community in the civilized world. Giving names, dates and places in detail, he tells how the Bay State Gas Company, in league with the Whitney machine, got a charter by wholesale bribery. Then turning his attention to the three great insurance companies, the New York Life, Equitable and Mutual, he says that he has been approached by an agent of these companies with threats of what they would do if he brought them into the story. While admitting that these institutions together constitute the greatest financial power in the world, he says he will not be turned aside. He prints the fac-simile letter from President McCall, of the New York Life, to an Ohio policy holder, attributing Lawson's attack to the company's refusal to issue him a policy. At the same time another letter from McCall to Lawson, dated January 22, is reproduced, in which Mr. Lawson is urged to take out a policy. Mr. Lawson repeats his assertion that the New York Life has still large investments in stock securies. He does not advise policy holders, however, to discontinue premiums, but he makes them feel rather uncomfortable. Indeed his articles are calculated to "frenzy" shareholders in many stock companies heretofore considered "gilt edged."

Two musketeers were recently charged at Dessau with rioting and assaulting a superior officer. This officer, Sergeant Heine, entered a dancing saloon, intoxicated, and jostled and insulted the wives of the musketeers, who, on protesting, were attacked by him with drawn sword. They wrested the weapon from him, for which the prosecution asked that they be sentenced to five years at hard labor, dismissal from the army and loss of civil rights. When the prisoners' counsel asked whether it was contended that soldiers had no right to act in self-defense the prosecutor answered: "Self-defense is a conception which does not exist in the relations between soldiers and their superiors. It is absolutely necessary that a soldier should allow himself, if necessary, to be slaughtered by an officer, though the latter be making illegal use of his weapon." The court pronounced sentence as demanded. Germany is a military country in which direction the United States is rapidly drifting, though the people have their eyes wide open.

FOR SOME time it has been the custom of newspapers to publish the fatalities and accidents incident to Christmas and Fourth of July. Mortuary lists of victims of football are now claiming attention. It appears that thirteen deaths have resulted from that game this season. The casualty list is the same as last year, but the number of serious injuries during the season just closed will exceed that of any year since the introduction of the sport. The players injured number 296. Ratably to the number engaged the number of victims of the game is enormously greater than that of the victims of our annually occurring fireworks and toy pistol mania on Independence day. Football is doubtless our most dangerous pastime. It is noteworthy, however, that no fatalities and few very serious injuries attended the play of the university and college teams, which would indicate that the greater the degree of skill attained by participants in the game the smaller the chance of bad accidents.

DURING the past three years $340,000,000 have been invested in the territory tributary to the 8,600 miles of the Southern Railway and the Mobile & Ohio Railroad. The Southern Field, published by the land and industrial department of the Southern Railway, which is authority for that statement, says:

Of this vast sum nearly $140,000,000 was expended in the construction and equipment of traffic-producing industrial plants, while the remainder was expended in public and semi-public utilities in the nature of conservative forces, a very large sum finding its mission in the capitalization of banks, insurance and trust companies, and a still larger sum in the great municipal improvements which are becoming such a marked feature in the cities and towns reached by this system. The strictly industrial investments in new plants during the period under review numbered 674 in 1902, 908 in 1903 and 678 in the year ended on June 30, 1904.

THE Merchant Marine Commission, which is preparing its report to Congress on Saturday in Washington gave further consideration to the upbuilding of the American merchant marine in foreign trade. Some attention also was given to proposals to reserve to American shipping the isthmian canal trade. Regarding the work of the commission, Senator Gallinger, its chairman, said:

Without exception the American shipowners consulted by the Commission declare that the passage of a simple free ship law, without some further encouragement to American shipping, would do nothing whatever to increase the American merchant marine.

Why certainly; a ship subsidy is what the shipowners want, for by this means they could put their arms into the public treasury up to their shoulders.

Washington, D. C., Nov. 28

Secretary Shaw has decided to call a halt on the wholsale expenditures which the republican leaders of both the Senate and House have planned for the coming session of Congress. In his annual report, which will be issued this week, he will call attention to the fact that the expenditures are exceeding the receipts to a greater extent than was anticipated, and that the deficit at the end of the fiscal year, on June 30, will go beyond his estimates. The already depleted surplus will be largely reduced during the next seven months, and Mr. Shaw will suggest that, under these conditions, it is a time for retrenchment rather than extravagance. He has told them that by the end of the present fiscal year the surplus will be reduced to $50,000,000, if not less, and that at the rate things now are going that $50,000,000, probably will be eaten up during the next fiscal year. Without the most rigid economy it soon will be necessary to float another bond issue. Mr. Shaw estimated a deficit of $23,000,000 for this year. The deficit Saturday was $25,987,888. It will continue to grow, and by June 30 it probably will be $30,000,000, and it may be more. The surplus now is $104,930,504, but $25,000,000 of it has already been called for to replenish the working baiance, which now is down to $23,000,000.

Southern Senators and Representatives now in the city do not anticipate that the republicans will seriously attempt to cut down the southern representation in the House at the coming session of Congress. This feeling seems also to prevail among a great many of conservative republicans who have been approached. Little or nothing is heard that would indicate any intention to stir up the South afresh next winter. A prominent Senator from the south says: The plan has no popularity among the more thoughtful and unbiased men of the northern States, and its attempted execution would bring the republican party a degree of unpopularity in its own strongholds, for which no loss it could inflict on the South would compensate in any way.

Former Representative Taylor of Ohio, who is the opponent of Senator Smoot, of Utah, is holding a conference this afternoon with Senator Burrows, chairman of the Senate committee on privileges and elections which is in charge of the case. It is expected that the case will be reopened within 10 days.

It is learned here that a 1908 boom of Senator Charles W. Fairbanks is to be formally launched in Indianapolis and an organization is now being perfected to see that it does not go to pieces too soon.

The selection of successors to Senators Hanna, Hoar and Quay on the various Senate committees is occupying the attention of members of the Senate as they reach this city.

In the case of the Baltimore Ship Building Company against the Baltimore Council, the Supreme Court today declared that the tax on lands of the former inforced by the City of Baltimore is a proper one. The Ship Building Co. claimed that the land granted it by the government, formerly part of Fort McHenry reservation could not be taxed because the government reserved certain interests. The court held that these interests are not such as to prevent the plaintiff from being taxed.

A Sherlock Homes is needed by the sub-committee of the House committee on judiciary, which is hearing evidence in the proposed impeachment of Charles Swayne, U. S. judge for the northern district of Florida, to determine whether or not a letter of vital importance to the case is a forgery. R. J. Boone, who it is claimed signed the letter, which plainly shows conspiracy, in one of Judge Swayne's bankruptcy cases, proclaims the letter a forgery. Mrs. S. L. Douns, of Waco, Tex., testified today that Judge Swayne stopped with her for three terms of the court at Waco, each term ranging from three to five weeks, and that he paid at the rate of $40 a month when alone and $65 a month when accompanied by his wife. Judge Swayne charged the government $10 a day for living expenses during that time.

In the case of Helena Water Works Company vs. the City of Helena, Montana, the U. S. Supreme Court today sustains the right of the city to erect and maintain a waterworks.

The Supreme Court today decided the famous Daniel G. Fayerweather will case which has been pending in the courts for 13 years. It sustains the judgment of the New York courts which decided in favor of the colleges to which funds had been bequeathed and against the executor's widow and two nieces. Former Secretary of War Root was one of the counsel in the case. The amount involved is $3,000,000. The University of Virginia is one of the beneficiaries of the will.

Count Cassini, the Russian Ambassador, and Sir Mortimer Durand, British Ambassador, called at the State Department today and conjointly extended to the United States an invitation to name a high ranking officer of the United States navy on the International Commission that is to investigate the Dogger Bank incident. The names of Admiral Dewey and Rear Admiral French E. Chadwick are both being considered in this connection.

The rivers and harbors committee of the House met this morning in conference to consider the preliminary matters in connection with the framing of a general rivers and harbors bill to considered at the coming session of Congress. The bill will provide for an approximate expenditure of $40,000,000. Later in the week the committee will visit Wilmington, N.C., to look over the suggested improvements at that point.

Trouble arose over the discussion of opposite kinds of hats worn by the two men. A few angry words passed and the fist of the big Texan landed just below Lee's left ear. Every enlisted man in the battalion of the Eighth Infantry, which is stationed at Governor's Island N. Y., was turned out last night just after dark to search for two prisoners who had escaped from Castle William by jumping from the parapet to the ground, 30 feet below. The men made their way unobserved to the water front, where they swam to a small dory anchored near shore, in which they rowed out into the bay. They hailed a ferry boat, which picked them up, and, believing them to be shipwrecked sailors, landed them in Brooklyn, where further trace of them was lost.

Thirty-five persons were injured late yesterday afternoon by the derailment of passenger train No. 4 on the Mobile and Ohio Railway, one mile east of Columbus, Miss. The injuries of none, it is thought, will prove fatal. The place where the wreck occurred is on a perfectly straight track on an embankment twenty feet high on both sides. No definite explanation has yet been given as to the cause of the accident. The combined baggage and express car rolled down the embankment and the other two coaches, both passenger, were torn loose and fell to the bottom of the embankment.

News has reached Albuquerque, N. Mex., of the assination of Col. R. Francisco Chaves, probably the best-known republican politician in New Mexico, at Pinos Wells, Torrence county. Col. Chaves was the guest of a friend, and while they were eating supper a shot was fired through a window, and Chaves fell from his chair dead. It is believed that the assassination was the work of some political enemy. Col. Chaves was born in New Mexico in 1833. In 1865 Col. Chaves was elected delegate to Congress and served three terms. He had been in the territorial legislative council continuously since 1876. Two years ago he was appointed superintendent of instruction, and was named by the legislature of 1903 the historian for New Mexico. These positions he held at the time of his death.

A Father's Terrible Crime.

Walter Trubshaw murdered his wife and two children at Mexborough, England, Saturday morning, and then committed suicide. Neighbors found Mrs. Trubshaw lying on the floor, the eldest child, four years old, on the bed, and the twelve-months-old baby in its cot, with their heads battered in. On the carpet nearby lay an old-fashioned policeman's truncheon. There was no sign of Trubshaw, and while the neighbors were looking for him the sound of a fall in the bathroom attracted their attention. They went there and found Trubshaw with his head nearly severed from his body and a blood-stained razor by his side. Mrs. Trubshaw and her children only survived for a few minutes. It was obvious that the servant girl had also had a narrow escape, for after she left the house Trubshaw burst into her room and the disorder which prevailed showed that he had been searching for her. Trubshaw was about 35 years old.

Murder in Woodstock.

William H. Fry, a native of Woodstock, was murdered in the engine room of the Shenandoah Manufacturing Company yesterday morning. When found his pistol lay about ten feet from the body and a socket wrench, with which he was killed, lay near it, with some small change, which fell from his pocket. The murdered man was fifty-five years old and leaves a widow and three daughters. There is no clew to the murderer, but every effort is being made to discover the guilty person. M. B. Few, of Woodstock, was arrested yesterday morning and placed in jail upon the charge of threatening to burn the building, but it is not believed that he can be connected with the murder.

Fighting at Port Arthur.

St. Petersburg, Nov. 28.—The following dispatch dated yesterday has been received from General Kuropatkin: "The offensive movement by the Japanese near Ezanchan on Saturday continued until 4 p. m. The fighting was indecisive, though the Japanese advance was stayed by the Russian forces. Although fighting has continued for the past three days, the spirit of the troops continues excellent. There have been no reports received of any fighting last night."

Rome, Nov. 28.—A message from Tokio says bitter cold weather prevails throughout Manchuria. The cold is especially intense about the Shahke river, where the armies of Field Marshal Oyama and Gen. Kuropatkin face each other. Five of General Kuroki's sentinels were frozen to death at their posts.

St. Petersburg, Nov. 28.—The Ministery of Marine has published a table representing Russia's naval strength in the far East as 48 vessels, including the Baltic fleet, Japan's strength is placed at 25 vessels. The statement adds that victory is consequently assured.

Rome, Nov. 28.—The Giornale di Roma has a dispatch from Tokio reporting that the general attack on the Port Arthur fortifications, which began on the night of November 26, has been but partially successful. Forts Ehrlung Shan, Easterhlung and Maiokvbujama (?) have been destroyed, but the Japanese attacks on Sung Shan and Vikwan (probably Keekwan), forts were repulsed. The total Japanese losses are reported to have been nearly 7,000. The correspondent adds that it is possible that the attack will not be renewed, but that the Japanese will continue to besiege the town until the Russians are forced to capitulate by the lack of food.

Bank Closed.

Oberlin, O., Nov. 28.—The Citizens' National Bank closed its doors this morning, and the following notice was posted on the door: "This bank will not open this morning, nor until further notice The bank is in charge of the national bank examiner for examination." C. G. Beckwith is president of the institution. No statement further than that on the door has been issued. New Trial for Nan Patterson.

New York, Nov. 28.—The jury in the case of Nan Patterson, the actress, charged with the murder of Caesar Young, was discharged today by Judge Davis, on account of the serious illness of Edward J. Dressler, a juror, who suffered a stroke of paralysis last week. Medical opinion was presented in court, today, to show that Dressler's condition was such that it would be impossible for him to continue as a trial juror in the case. On motion of Prosecutor Rand, Judge Davis issued a call for a new panel of 200 talesmen to report for the new trial on December 5. Meanwhile, Miss Patterson remains in the Tombs. Miss Patterson was in court during the proceedings, and took a deep interest in the events of the morning. While regretting the circumstances which caused a mistrial, Miss Patterson is much disheartened over a continued incarceration. She dreads the reiteration of much of the prosecution's case.

A Committee Refused Audience.

St. Petersburg, Nov. 28.—It is learned that a committee of six members, nominated at the last private meeting of the representatives of the zemstovs have not been allowed to present their programme to the Emperor. M. Chipoff, the president of the committee, when he found an audience with the Czar was impossible, went to Prince Mirsky, Minister of the Interior, with this programme. Prince Mirsky is reported as saying that nine out of eleven articles were admissable. These articles ask for equal rights for all, habeas corpus laws, liberty of the press and association, and compulsory education. The last two points of the document practically ask for a constitution, and express the hope that a meeting between the government officials and the delegates of the zemstvos will take place shortly.

New York Stock Market.

New York, Nov. 28.—The do minant feature of the stock market this morning, was its extreme irregularity. In this it was a reflection of the London quotations, which showed many irregularities as compared with Saturday. In the industrials U. S. Steel common was strong, while the preferred was somewhat hesitating. Sugar, after an early advance of ⅞ per cent., became weak, and fell 2½ per cent, subsequently rallying only fractionally. Strength was generally shown by the Steel and railroad equipment issues. Local traction issues were irregular. Later the railroad list developed considerable strength.

Dual Government Threatened.

Denver, Col., Nov. 28.—The talk of a dual state government if the republicans try to seat Peabody, is heard. J. S. Apple, a leading merchant, who maintains Adams was elected governor by "an honest 11,000 plurality," says business and professional interests will not submit and that Adams will be sworn in together with another legislature. Arguments for and against this proposition were made without any definite action being taken at a conference Sunday of prominent democrats. Governor-elect Adams was asked what he thought of the attempts to seat Peabody, and the dual governor proposition. "The republicans, even with the Senate, will have a hard time to overcome my plurality," he said, "I have just bought a house in Denver." The democrats today began a campaign to influence public sentiment. Circulars will be sent to every man and woman in Colorado.

Much-married Woman.

New York, Nov. 28.—If the statements contained in the sworn affidavit of Charles F. Henderson, in an action for annulment of marriage just commenced by him in the Supreme Court, are true, his wife, Kate Henderson, who is 30 years old, has just three husbands more than the law allows. Mrs. Henderson is very pretty. Henderson makes a chronological table of his wife's alleged marriages as follows: Husband No. 1—John Gillingham, married in New York city, 1891; husband No. 2—Charles Bernstein, married in New York city February 28, 1893; husband No. 3—Charles F. Henderson, married in Jersey City, August 9, 1895; husband No. 4—Victor Carl, married in 1901.

Accident to Trolley Car.

St. Louis, Nov. 28.—Charles T. Warner, sixty years old, was killed and from twenty to thirty persons seriously injured by the overturning of a crowded Bellefontaine line trolley car at Fourteenth and Papin streets at 7:30 o'clock this morning. Motorman C. H. Smith lost control of the car while descending a grade on account of the breaking of the brake beam. The car left the track and crashed into a pile of rails and other material used in rebuilding the tracks. Many of the passengers were women and shop girls on their way down town. Motorman H. C. Smith, was arrested, pending an investigation by the coroner.

Senational Denouement.

Lisbon, Nov. 28.—A sensational case, with an equally sensational denouement, has stirred Portuguese court circles. A well known Portuguese baroness recently sued her husband for separation on the ground of prodigality. When the trial opened it was discovered that the baroness herself was not guiltless. Her amours with a leading actor were brought to light. The baroness at once fled to Paris, while the actor was arrested. The great wealth and beauty of the baroness, who is but 25 years of age, and the conspicuous position of the couple in the best society, has caused a great scandal.

Alleged Bank Robber and Murderer.

Auburn, Cala., Nov. 28.—Coroner Shepard has unearthed evidence which he claims proves that young Adolph Weber, now in jail here for the alleged murder of his father, mother, brother and sister, is a bank robber as well as a homicide. Buried in a cow shed on the Weber place, he found a large bucket containing over $6,000 in twenty dollar pieces. This is the amount stolen from the Placer County Bank, of this city, last spring. Young Weber long was suspected of this crime. Late last night a warrant charging him with the crime was served on the young prisoner.

Forcing His Way to the President.

St. Louis, Nov. 28.—Just as President Roosevelt's train was leaving the World's Fair grounds shortly after midnight, a well dressed man said to be the proprietor of a restaurant on the Pike, started up the steps of the car. Secret service men stopped him. To their inquiries he replied pompously: "Sirs, I wish to speak to Mr. Roosevelt, allow me to pass." He was quickly escorted to the ground, and ordered to make himself scarce. The incident was not brought to the President's notice and no one in his party knew of it.

The President.

President Roosevelt and his party remained in St. Louis Sunday, and late last night started on their special train for Washington. The President and Mrs. Roosevelt and party attended the Second Presbyterian Church in the morning, and in the afternoon took a drive, surrounded on every side by secret service detectives. President and Mrs. D. R. Francis entertained the presidential party at dinner in the evening. What is considered the most notable utterance of the President on the rit was made at the banquet late Saturday night. Quoting Lincolen he said: "'As long as I have been in this office I have never willingly planted a thorn in any man's bosom. I am gratified that my countrymen have seen fit to continue me in office, but it does not add to my satisfaction that anyone else is pained by the result.' "Those were the words of Lincoln in 1864, and I feel that any man who tries to be fit to be President of the United States should approach his duties in that spirit. * * He should realize that whatever the differences before election, once the election has taken place, the President is the President of all the people of every section socially, of every section industrially, of all the people of the north or south, east or west."

Desperate Fighting.

Desperate fighting at Port Arthur continues. At Japanese Imperial headquarters, at Tokio, the announcement was made last night that a general assault was made Saturday afternoon upon the Sungshu Mountain forts, but the Russians' stubborn resistance prevented the Japanese accomplishing their object. Trained bodies of swordsmen, led by Generals and Nakamura Saito, charged into several forts and engaged the Russians in bloody hand-to-hand fighting.

Simultaneously with the latest general assault at Port Arthur, Marshal Oyama's forces in Manchuria Saturday began a movement to envelop the Russian left flank and attack the Russian center.

General Kuropatkin, in a report to the Russian War Office yesterday, said he had received no later reports of these operations, but he also reported an attack on the front of the Russian left flank near Yensienten on November 24, which he said was repulsed. The Japanese renewed the attack on Friday in a blizzard and then advanced under cover of a fog.

It appears from the Russian commander-in-chief's reports that the Japanese have at last begun a general movement which is likely to develop into another desperate engagement and a determined advance of Marshal Oyama's forces upon Mukden.

Premier Katsura, of Japan, in discussing the war says:

"We are prepared to sacrifice our last man and our last cent. Russia must see that the war cannot be concluded by the issue of a few battles. With us the war means life or death, and not one of our 45,000,000 brethren remains ignorant of the vital issues at stake."

Roasted Baby.

According to the New York police, Ida Englehardt, a young German woman under arrest in Patterson, N. J., has confessed that she roasted her infant bofore a furnace fire until it had been fatally burned. The young woman was employed by Moses T. La Forge, in Paterson. On Saturday Mr. La Forge found the infant in an ash barrel. The child was alive but part of its body were badly burned and the little one died in a hospital. Investigation resulted in arrest of Ida Englehardt who yesterday said she was the mother of the baby and confessed that she carried it to the cellar and exposed the body to the heat of the furnace. The child's cries, she feared, according to the police story of this confession, would awaken the house, while the odor of burning flesh was filling the cellar, so she desisted. Thinking the baby dead, she threw it in the barrel. The woman is in a Paterson hospital, where she was taken by officers.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre, of Shepherdtown, W. V., says: "I had a severe attack of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallable for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by E. S. Leadbeater & Sons, Druggists. Trial bottles free. Regular sizes 50c and $1.

WEATHER PROBABILITIES.—For this section fair tonight, minimum temperature about 26°. Tuesday fair; light to fresh north to east winds.

Importance of Alexandria.

The Washington Star of last Saturday has the following to say of Alexandria:

Few people know that a large part of the necessities of living are brought from Alexandria to Washington establishments every day. Washington is and has always been essentially a place of residence. Groceries, drugs, flour, candy and other like commodities are supplied from Alexandria to the retail merchants of this city in a quicker manner and at less net cost than can be furnished from other outside markets. This bit of information may be entirely new to many residents of the national capital. But there is a reason for it. For instance: A local retail grocer goes to his sugar bin and finds it empty. What does he do? Write an order to Philadelphia or Baltimore? Such a proceeding would take from twenty-four to forty-eighth hours to get a result. He uses the telephone. Calls up his merchant in Alexandria. The merchant and the goods are being [illegible] being unloaded. In this way the [illegible] is saved, the freight is saved and the [illegible] for labor for handling the goods is saved. Thus it can be readily seen that Alexandria is really a part of the capital city.

A Cold Wave.

A frigid wave struck this city and vicinity Saturday night, and the weather yesterday morning and throughout the day was cold and blustering. The temperature of the preceeding Sunday was rather too warm for comfort, especially in the early part of the afternoon, the mercury standing between 71 and 72°; yesterday it was hovering between 28 and 29.° There was snow in the suburbs of Baltimore but was none fell in this vicinity About sundown the wind diminished in force, but the temperature remained at the freezing point. The attendance at the various places of worship showed an increase in the morning, but at night only average congregations were present. There were comparatively few people on the streets during the day, the cold weather keeping most people within doors. Warmer weather is predicted for tomorrow.

Alarms of Fire.

An alarm of fire was sounded yesterday afternoon about two o'clock when a fire was discovered upon the roof of a small frame house, on the north side of Franklin street, between Pitt and St. Asaph. The apparatus repaired to the scene, but the flames were extinguished by people living in the neighborhood and the engines were not brought into service. The second alarm, at 6 o'clock, was caused by a fire on the roof of a house adjoining that which had previously caught fire. It was also extinguished by neighbors. The houses belong to Mr. Martin Lawler, and are occupied by colored people.

Fined Twenty Dollars.

Edward Drowns, August Robinson and W. H. Gilmore were arrested yesterday by Officers Ferguson and Arrington on suspicion of stealing a watch from a man named W. T. Willis. The latter was not present in the Police Court this morning when the case was called, and there being no evidence against the suspects they were dismissed. Drowns and Robinson are eighteen-year-old youths, and during the examination of the case it was shown that both had obtained beer in a saloon where Willis alleged he had lost his watch. One of the proprietors of the place was fined $20.

Sent to the Grand Jury.

Officer Smith on Saturday arrested a colored individual named Walter Graves on the charge of entering rooms in the Fleischmann House annex, on the west side of Royal street, between King and Prince, and stealing an overcoat, a pair of gloves, a pair of shoes and several razors. It was alleged that Graves had sold the overcoat in Washington. This morning in the Police Court he pleaded guilty to the charge urged against him, and was sent on to the grand jury.

Vicious Dog Killed.

Officers Lyles and Allen this morning killed a vicious dog on Franklin street, between Pitt and St. Asaph. The brute had recently snapped at passersby, and when pursued took refuge under a house. The officers dislodged the dog from its retreat and shot it to death. There are several vicious and mischievous curs in Alexandria that should meet a similar fate.

Jr. O. U. A. M.

The members of Alexandria Council, Junior Order of American Mechanics, attended the Baptist Church last night. This was in accordance with a proclamation of the National Councilor setting aside the 27th of November as a day of thanksgiving and prayer. Rev. Mr. Wray delivered an interesting and instructive sermon.

Flats.

The old brick building on the north side of Duke street between Payne and West, belonging to the late Thomas Swann, is being converted into a flat and Messrs. Chilcott & Son, contractors, are now at work on the building. There will be three floors of six rooms each, all fitted with modern improvements and conveniences.

Fell from Pole.

W. C. Cascut, a Western Union telegraph lineman, fell from a pole, a distance of thirty-five feet, near Aquia Creek, on the Washington Southern Railway, yesterday afternoon. One of his legs was broken and he was badly bruised. The injured man was brought here last night and removed to the Alexandria Hospital.

Case Postponed.

The examination of the charges of conduct unbecoming policemen which had been urged against Officers Roberts and Mayhugh, to have been conducted by Mayor Paff last Saturday night, was postponed, the accused having telephoned to the Mayor that they were sick and unable to be present.

A Complaint.

Mr. O. J. Nugent, who conducts a store at the northwest corner of King and Payne streets, today sent a letter to Mr. H. B. Recently people living on Payne street, north of King, have entered complaints similar to that urged by Mr. Nugent. A night or two ago a fight occurred on the square between King and Cameron streets, during which rocks were thrown. The matter will receive the attention of the police in that beat.

A Card of Thanks.

If it were possible I would like to thank individually each one who has shown such a deep interest in my welfare since my irreparable loss, and who gave such open expression of sympathy and friendship during the sickness and suffering of my dear wife, the second terrible ordeal to which I have been subjected,

As this, however, would be an almost impossible task, I avail myself of this means to give expression of the appreciation which I feel for the universal consideration and kindness extended me. May He who hath said "Inasmuch as ye have done it unto one of the least of these ye have done it unto me," abundantly bless and reward the good people of Alexandria, who with loving hearts and willing hands are ever ready to contribute to the relief of His stricken ones.

GEORGE W. KEYS.

Egyptian Smokers and Madness.

An Egyptian smoker of hasheesh is even a more helpless slave than the Chinese opium fiend. He knows that in the end he will become a madman yet he rushes toward the awful goal with unrelaxed speed. With the strange exaltation which first comes to the smoker he feels himself floating from cloud to cloud or alighting in the gardens of palaces all his own. Most of the hasheesh which Egypt consumes comes from Greece. From the husks of the hemp seeds and the tender hops of the hemp plant the Greeks manufacture a greenish powder whose fumes bring the ecstasy its victims

Actors' Church Alliance.

A meeting in the interests of the Actors' Church Alliance of America was held at St. Peter's Protestant Episcopal Church, in Baltimore yesterday afternoon at 3 o'clock. The assemblage was addressed by Rev. Walter E. Bentley, general secretary and organizer of the alliance.

The church was well filled by a concourse of church and theatrical people interested in the movement, and, in addition to the address, there was special music by the vested choir, with solos by Mr. Harry A. Truax, of the De Witt company of players, and Miss Elizabeth Albert, of St. Peter's choir.

Rev. Mr. Bentley, in his address, outlined the work and aims of the alliance, and forcefully illustrated the immense power of the theater as an adjunct to the advancement of the enlightenment of the Christian world. He selected his subject from the last verse of the first chapter of Acts, "This same Jesus shall come again," and then outlined the work.

Mr. Bentley spoke of the ascension and second coming of Christ as having a direct bearing on the great work in hand. He told of the judgment and destruction of Jerusalem in A. D 70 by the Roman legions, when many men, women and children fell under the ruthless sword of a ransacking soldiery, and then of the later downfall of all-conquering Rome, and its conversion from heathenism and idolatry to Christianity. The wonderful revolution worked in the affairs of the church by the Reformation was commented upon, and a forceful lesson was drawn from the utter destruction of the Spanish Armada by a handful of English ships, illustrative of the wise and omnipotent hand of a just and gracious God. Mr. Bentley also spoke of the discovery of the great continent by Columbus and of the changes wrought by the civil war.

Quick Arrest.

J. A. Gulledge, of Verbena, Ala., was twice in the hospital from a severe case of piles, causing 24 tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at E. S. Leadbeater & Sons, Druggists.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Chronic Diarrhœa Cured.

Mr. Walter Richardson, of Troutville, Va., had an attack of diarrhœa that came near ending his life. His physician had failed to relieve him and the disease had become chronic when he began using Chamberlain's Colic, Cholera and Diarrhœa Remedy. It soon cured him and he now recommends that preparation whenever an opportunity offers. For sale by Gibson & Timberman and W. F. Creighton & Co., druggists.

Mothers Praise It.

Mothers everywhere praise One Minute Cough Cure for the sufferings it has relieved and the lives of their little ones it has saved. A certain cure for coughs, croup and whooping cough. A. L. Spafford, postmaster of Chester, Mich., says: "Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. One Minute Cough Cure quickly relieved and cured her and I cannot praise it too highly." One minute Cough Cure relieves coughs, makes breathing easy, cuts out phlegm, draws out inflammation, and removes every cause of a cough and strain on lungs. Sold by all druggists.
